FitDel takes care of everything else.

What customers have to say...

I found FitDel while searching for a company that I could rent several treadmills for a one-day project. Thankfully, FitDel exists and worked with me on my unusual request! Duncan worked with me from Day 1 on this project. He is friendly, professional, and figured out a way to meet the requirements that I needed. He was super helpful during the entire process. The treadmills worked fabulously and the FitDel team came back the following day to pick them up. **If you are looking for great customer service and quality fitness machines for your event, I highly recommend FitDel!**
